A SPLENDID OIL STRIKE.

We learn from a gentleman just returned from a visit to the oil region of West Virginia, that the "Wirt Oil Company," who own a large territory at Burning Springs, struck in the third sand rock, at their No. 3 Well, on the 1st instant, one of the largest wells ever obtained in the United States. When struck, it threw a solid stream of oil of five inches diameter, sixty feet high, until tubed and turned successfully into a tank, which was filled, by measurement, at the rate of seventy barrels of pure oil an hour. A remarkable feature of this well is that, after flowing forty-eight hours, not a drop of water was drawn from the tank. When our informant saw the well, four days after it struck, he was assured by good judges, and his own observation confirmed it, that it was flowing fifteen hundred barrels a day of oil, and no water, a greater flow of pure oil than is ever known to have been obtained by any well heretofore struck in any region. The oil is of the best gravity, and thought very pure.

The practical and efficient Superintendent of the "Wirt" is Mr. John Otterson, of Allegheny City, a gentleman well known here as able, reliable and trustworthy. We congratulate the Company on having "the right man in the right place," and the stockholders, some of whom are our own citizens, on the splendid well their perseverance has procured them, and we hope many more awaits their enterprise and skill in the development of their large and valuable territory.

THE Washington *Republican*, the accredited organ of the President, recently made the declaration that a special session of Congress was not called to settle the terms of reconstruction because no desire was expressed thereof; that Speaker Colfax started on his journey across the continent without suggesting a call for an extra session; and much more of like import.

Under date June 4th, Mr. Colfax replies that he reached Washington on the very morning President Lincoln was murdered, for the express purpose of urging him to call a special session. Mr. Lincoln wanted to put the session off as long as possible; said if he called one, he should give sixty days notice, and would telegraph him at San Francisco.

One or two days after the murder, Mr. Colfax says he suggested an extra session to President Johnson, who answered that his sudden accession to power gave him so many things to think of he could not then think of that. But Mr. Colfax started on his journey, not doubting but an extra session would be called.

AT the recent term of the Court of Quarter Sessions in and for Sullivan county, six persons, Republicans, were brought to trial on an indictment for attempting to overawe a Democrat, one Peterman, from voting. Peterman was a deserter from the draft, and the defendants held he had no right to vote. They threatened, and some scuffling and striking occurred, and the election board refused his vote. Judge Elwell, Republican, decided that Peterman *was* a legal voter, but as there was not positive evidence that the defendants intended to prevent his voting the jury brought in a verdict of *not guilty*.

So far, every President Judge who has had a case under the law disfranchising deserters before him, has denied its validity. Two of the Judges are Republicans; one a Democrat.

OF Captain J. E. Becker, who was turned out of the Soldier's State Convention in this city, a Reading letter to the Philadelphia *Press* says:

"He was *only about six weeks in the service, and never crossed the Potomac.* He knows nothing of skirmishes or of battles, save what he has read in the newspapers or been told by his more courageous fellow citizens, who fought for their country while he and his political friends were shooting them in the rear."

IN the Assembly district embracing Mercer, Lawrence and Butler, the last two counties have already nominated one candidate each, as heretofore announced, leaving the former to nominate two members. Mr. J. McPherrin, it is conceded, will be retained. For the other seat the contest seems to be between John B. White and James A. Leech.

NAPOLEON III. is an "artful dodger." Having stipulated the withdrawal of his army from Rome next year, he is now in venting reasons for keeping it there. It is to stay—not to protect the Pope—but as a corps of observation. In ordinary business such stuff would bring the Emperor into the dock on an indictment for False Pretenses.

GENERAL MURPHY'S statement will attract attention. If what he says is true—and he is corroborated by circumstances—the government at Washington is placed in an unenviable light. Mr. Seward is none too good to act the part charged upon him.

THE Democrats start the campaign for Clymer by a mass meeting at Reading, July 11. That ought to be taken, even by sensation paragraphs, as conclusive evidence that he will not be withdrawn.

MR. B. P. JOHNSON, President of the New York State Agricultural Society, gives official notification of the existence of Rinderpest among the cows in the cities of New York and Brooklyn.

IT now looks as though all the British North American Provinces would come into the Confederation scheme, and Lord Monk, now Governor General, be made Viceroy.

THE look is that England will soon show by multiplied executions for treason in Canada how hypocritical she has been in urging us not to punish the leaders in rebellion here.

A GENTLEMAN out in Nebraska affords evidence of his Conservatism in calling the republican members of Congress "those wild Dahomy fanatics at Washington."

RECENT borings in Lebanon township, Pike county, Pa., are said to demonstrate the existence of pure beds of anthracite coal.

THE investigations by the House Committee on the Provost Marshal's official acts are very damaging to General Fry.

NORTH CAROLINA is reported ready to accept the Congressional plan of reconstruction.

—The surrender of Lee's army threw into the hands of our Government, thirty thousand muskets of British manufacture. These were sold to a speculator, and from him purchased at double their original cost by the Canadian authorities.

CITY ITEMS.

Messrs. Editors:—In your issue of June 8th, over the signature of "A Citizen," I observe some remarks in regard to the High School. I agree with the writer in one thing, viz: that there seems to be a good deal of interest in regard to educational matters at present. I would just say that the High School has attained such a reputation as to make it an object of envy to its enemies.

The faculty consists of four permanent teachers, who are competent and faithful. The average attendance of pupils will exceed the number stated by "a Citizen." The number annually admitted is about seventy, and it requires four years to complete the course there taught.

The intent of those who established it was to furnish an opportunity to these of limited means of obtaining an education, which, if not collegiate, goes a good way towards it. there are many, having received a ward school education, sent to "private schools in the city charging high prices for tuition," their parents going on the principle "the more cost, the more honor," consequently said public schools number their pupils by hundreds.

And so far from the course being "dry, lifeless and mechanical," those who have good opportunity of knowing consider it interesting and instructive to the highest degree. The scientific and mathematical courses will compare well with the same in many colleges, and the classical also, so far as the latin language is concerned. And in regard to the last topic in "A Citizen's" article, being personally acquainted with the Secretary of the Central Board for many years, I would only say, I know he would offer no insult to any one, especially a lady, for holding her own views

AN OBSERVANT CITIZEN.

Words of Vital Interest.

Will the thousands who read columns of frivolous verbiage every day devote *five minutes* to the perusal of a few facts which concern them nearly? Our text is *Health*, and we will put our commentary into a nut-shell. *Weakness* is indirectly the cause of all sickness; for if nature be strong enough to resist the most malignant influences which produce illness, of course they are powerless. Seek strength, therefore, invigorate and regulate the system. When the quicksilver ranges from 80 to 95 degrees in the shade, the most athletic are enfeebled and the weak are prostrated. It is at such a time that such an invigorator as HOSTETTER'S STOMACH BITTERS is urgently needed. What are the effects of this rare Vegetable Tonic? Would that all who have known its benefits could condense their experience into this paragraph. They would tell the healthy, to protect their health they must use this great safeguard against the debilitating influences. They would exhort the weak to discard all unmedicated and impure stimulants and cling to this wholesome and unfailing tonic and alterative as the shipwrecked mariner would cling to a raft in a stormy sea. They would, of dyspeptic pangs relieved, of appetite restored, of shattered nerves restrung, of headaches cured, of disordered functions regulated, of hypochondria dissipated, of miasmatic diseased baffled, of fever and ague cured, of liver complaints arrested, of heat, privation and toil defied, of hope reanimated, and cheerfulness restored. Such are the effects of HOSTETTER'S BITTERS

FROM WASHINGTON.

Change of Military Commanders—Congress Likely to Adjourn Without Revising the Tariff—Important Decision by Commissioner of Pensions Affirmed—Progress of Senate Financial Committee on the Tax Bill—Senator Sumner, Speaker Colfax and Mr. Garfield Dine With an Officer of Maximilian's Staff, Denounce the Attempt to Establish a Monarchy on the American Continent, and Declare in Favor of the Monroe Doctrine.

WASHINGTON, June 10.—Brevet Major General John C. Robinson is ordered to relieve Brevet Major General T. H. Ruger, Military Commander of North Carolina, and superintendent of Freedmen's Affairs in that State.

Major General Terry, commanding the Department of Virginia, has ordered that all troops be withdrawn from Charlottesville.

There are indications that Congress will adjourn without making any increase of the Tariff, not to speak of making a revision of it. It is expected the bill will be reported next week.

The Secretary of the Interior to-day affirmed a decision of the Commissioner of Pensions. An application for an invalid pension for the reason that the applicant was disonorably dismissed on second enlistment although the disability was incurred in the previous service from which he was honorably discharged. The Commissioner held that by the word "discharge" an honorable discharge is intended, and that a dismissal under sentence of court martial is desirable, in other language, in military proceedings and records.

The Senate Financial Committee is making rapid progress on the tax bill. The Republican department is understood to be strongly opposed to the Allison amendment relating to penalties, for the reason that opportunities would be afforded to officers to make arbitrary and oppressive combinations for mercenary purpose. Commissioner Rollins is to be consulted communicated with Senators on the subject and expect the bill to pass in an acceptable form to the Department.

Count Reuerguiere, who pulls from Austria, is an officer on the staff of Maximillian, is at Washington, and has had frequent interviews at the state Department, and with the Committee on Foreign Affairs.

New York merchant, who accompanied him to Washington, gave him a dinner on Thursday, inviting Senator Nye, Speaker Colfax, Mr. Garfield, and other members of Congress. During dinner it leaked out the Count was connected with Maximillian's Government, when senator Nye, Speaker Colfax and others denounced the attempt to establish a monarchial government on this continent, and declared it to be the policy of our Government to support the Monroe Doctrine.

BUFFALO, June 9.—The commanding officer informs us that there are as many as three thousand Fenians in Buffalo. They are generally quiet and orderly. Very little, if any, trouble is anticipated, as not a quarter of them have arms or could get any here. A number of them learning that transportation had been furnished by the Government elsewhere to send them, have applied to General Barry to send them home. General Barry has telegraphed to General Meade for instructions on this point. It is pretty certain if Government does not send them home, they are likely to stay here some time. Most of the men have no money, and General Barry's order No. 2 of yesterday prevents them from traveling on railroads.

A reconnoissance was made by a body of Fenians up the lake shore last evening, and General Barry, fearing that an attempt might be made to cross, had armed boats patrol the lake for some distance.

The balance of the Fenian officers were yesterday released on bail of three thousand dollars.

MALONE, N. Y., June 9.—General Meade has issued the following:

All persons assembled at this place, in connection with and in aid of the Fenian organization, and for the purpose of invading a friendly country, are hereby ordered, in compliance with the President's proclamation, to desist from their enterprise and disband. The men of the existing military force will, on application to the officer in command of the United States forces, in giving their names and residences, and satisfying him that they are unable to provide their own transportation, be furnished with transportation to their homes; and all officers below the rank of field officers, who are unable to provide their own transportation, and desiring their parole to abandon the enterprise and return to their homes. Officers above the rank of field officers will be required to give such bonds as may be satisfactory to the civil authorities, it being the determination of the United States Government to preserve neutrality, and that none of the instrumentalities having been taken to prevent all accessions of men and material, the commanding general trusts that these liberal terms will have the effect of causing the expedition, now on foot, to be quietly and peaceably abandoned, and he confidently expects that all those who have any respect for the authority of the United States will conform to the requirements of the President's proclamation and of this, which is not promptly obeyed, a sufficient force will be brought to the frontier to compel it.

GEO. G. MEADE, Maj. Gen., U. S. A

NEW YORK, June 9.—The *Tribune's* special from Malone to-day says: There is little excitement here. Two companies of Regulars are at Fotsdam Junction to-day, and will arrive here from coming to Malone. Col. O'Neil is also there, and Gen. Meade has requested him not to come to Malone. The Fenians are under parole until to-morrow morning. Some have accepted transportation and leave to-night. Murphy made an address telling his followers to go home. By his order several companies of Regulars in Malone. During a ride this afternoon with Gen. Meade and Gens. Murphy and Heffernan, the latter complained of the interference of the United States governmental, and said: We have been invited here by the Cabinet, and used for the purposes of Mr. Seward. They encouraged us on to this thing. We bought our rifles from your arsenals, and were given to understand you would not interfere. They added: "This thing is not dead yet. We will succeed. We have our orders from Gen. Sweeney, and we can and will perform them. If we get arms we will cross into Canada. We shall fight the Regulars if they oppress us." Gen. Meade replied: "I have got orders too, I shall fight you to enforce the neutrality laws."

A special to the *Tribune* from East Hygate this noon says: A fight is imminent between the Fenians and Canadian Militia, between the boundary line and Pigeon Hill. Appearances indicate that the British troops will surround the Fenians. Numbers of disenchanted invaders are still returning to the States.

ROCHESTER, N. Y., June 9.—A company of the 13th Regiment N. Y. S. N. G., 100 men, was sent this morning, by order of General Barry, to the mouth of the Genessee to prevent the Fenians from capturing the two Canadian steaming which privateer charters. General Barry had information which led him to fear a seizure of those boats.

NEW YORK, June 9.—An Ottawa special says: A court-martial composed of twenty militia officers will be appointed immediately for the trial of the Fenians captured at Fort Erie. If convicted, judgment and execution of the law are to be executed. Employees of the Grand Trunk Railway have been recognized among the prisoners, and no doubt they will be hung. It is probable that the less culpable male positions are to be sentenced to penal servitude, and placed in the fortifications of Quebec.

ST. LOUIS, June 9.—The examination of M. W. Hogan before the U. S. District Court, closed to-day. Judge Treat decided to hold that gentleman in $5,00 bond for the probable violation of the neutrality laws. The case of A. J. Morrison, of Chicago, was then commenced.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON CITY, June 9, 1866.

HOUSE.

The Speaker read a letter from the Secretary of the Treasury, transmitting a statement of the amount paid for salary and mileage to the members of the XXXIXth Congress, which was referred to the Committee on Appropriations. The mileage paid to Senators was $124,108, and the salary $269,78—total, $125,826. The mileage paid to members of the House was $115,054, and the salary $1,149,106—total, $1,461,160. Senator Conness received for mileage $1,124, and Senator McDougal $10,938. Senators Harding and Nesmith, of Oregon, received for mileage $1,336 each. Senators Nye and Stewart, of Nevada, received for mileage $3,622 each, but this was only for one session, having the rate of $11,244 for the Congress. The Massachusetts Senators received for mileage $739 each. The smallest sum received for mileage was by Senator Johnson, of Maryland, $67.40. The California members, Mr. Cole received for mileage $10,338; Mr. Higby $10,848, and Mr. Shannon $10,694. The Colorado member, Mr. Hawley, received for mileage $12,501. Mr. Cole, the delegate from Washington Territory, received $12,089, and Mr. Wallace, the delegate from Idaho, $12,784. The smallest sum received for mileage was $66.60, by Henry Winter Davis.

The Constitutional Amendment passed by the Senate yesterday was reported to the House, with amendments, in which its concurrence was requested.

The Speaker announced that under the order of last session the House would go into, or except debate, as if in Committee of the Whole on the President's annual message.

Mr. Burleigh, of Dacotah, addressed the House in favor of the removal of the Indians from the mineral lands of the north-western territories, and their permanent location in certain districts in Dacotah and Montana.

Mr. Wilson, of Iowa, said he was not well informed as to the manner in which the Indian affairs of this government had been conducted, but he had been long of the opinion that the Indians had been more sinned against than sinning. He proceeded to read extracts from speeches made by two Indian chiefs before the House Committee on Indian affairs, charging all sorts of frauds and corruption against one Burleigh, an Indian agent, who turned out to be the present delegate from Dacotah who had just addressed the House.

Mr. Allison made a few remarks, repelling the insinuations against the President, the Secretary of the Interior and the Commissioner of Indian Affairs, contained in the speech of Mr. Burleigh.

Mr. Clark, of Ohio, made a speech on the subject of reconstruction, taking the Congressional view of the question.

Mr. Valandrin followed on the same side.

Mr. Boutwell gave notice that on Wednesday next the Senate amendments would be called up for action by the House.

Mr. Garfield presented a memorial from the boards of revenue commissioners of the States of Georgia and Mississippi, in behalf of the people of those States, asking national aid and co-operation in the construction of levees on the Mississippi river, which was referred to the Committee of Ways and Means.

The House at half past three o'clock adjourned.

Fire in Chicago.

CHICAGO, June 9.—Buildings Nos. 189 and 195 South Water street were destroyed by fire this morning. The heaviest losers are the Pennsylvania Oil Company, $150,000; Russell Bros., $100,000, and Hall Kimbark, $25,000—fully insured.

A general meeting of Overend, Gurney & Co., limited, was appointed for the 11th of June, to consider the position of the affairs of the company, and, if deemed expedient, to pass the following resolution:

That the company cannot, by reason of its liabilities, continue its business, and that it is advisable to wind up the same voluntarily.

A petition is in course of signature by the merchants of Havre, who suffered by the bombardment of Valparaiso, it prays that the Spanish Government shall be held responsible for the losses suffered by the subjects of neutral powers during the bombardment of the town, almost entirely inhabited by foreigners, an open, defenceless place, and exclusively commercial. The petitioners further pray that an international commission shall be appointed to settle the claims about to be made by the French merchants who suffered in their commercial interests at Valparaiso.

A letter from Rome says that the date for the leaving of French corps of occupation there has now been fixed at the 11th of December. It it remains beyond that period, it will no longer be under the protection of the Pope, but only as a corps of observation in regard to events in the Kingdom of Italy.

Letters from Vienna announce that a French frigate and an English one were expected in that port to remove the natives of two countries in case of an attack from the Italian fleet.

RINDERPEST IN NEW YORK.

Circular from the State Agricultural Society.

ADVICE TO STOCK PURCHASERS.

ALBANY, June 9.—Hon. J. Stanton Gould, President, and Colonel B. P. Johnson, Secretary, of the New York State Agricultural Society, have prepared a most important circular, from which the following extract is taken: We do hereby give notice that all cases of Rinderpest, or pleuro pneumonia, among cows in the stables of New York and Brooklyn, and vicinity, all persons having such stock to examine those which are offered for sale with reference to the disease. We also advise that in case the disease makes its appearance in any herd, the sick animals be at once and rigidly separated from the rest. The period of incubation of this disease varies from ten to sixty days. It is well ascertained that the disease is strictly infectious. It never occurs where the animal has not come into contact with the diseased animal. The meat of animals suffering from pleuro pneumonia is dangerous when used as human food. It is very probable the diseased herds will soon be offered for sale at very low prices to farmers. This contingency calls for additional precautions on the part of purchasers.

The Recent Affray on Shipboard—Financial Difficulties at Vancouver's Island and Victoria Colonies—Russian American Telegraph Line—A Protest Against Tea Per Cent. Tax on Miners, Also Against the Currency Bill Granting Public Land for Navigation Improvement in Colorado.

SAN FRANCISCO, June 6.—Patterson and Wells, two of the sailors engaged in the affray on the ship Semaloule, were before the Police Court yesterday. The depositions of witnesses who desired to leave on the vessel, were taken. The second and third mates, were the only officers left to be in a critical condition, are improving.

Vancouver's Island and Victoria dates of June 9th represent that the treasury of both colonies is empty, and banks refuse to further give credit to either, without proper guarantees. This state of affairs has been produced by a disagreement between Council and Assembly.

An English financial company, with a paid up capital of five hundred thousand pounds, is semi-formally in office for investment of Colonial securities.

Fenianism Dying Out—President Roberts Still in Ludlow Prison—Cases of Cholera Reported in the City—Excitement at Seguin's Point—Staten Islanders Declare They Will Have No Quarantine There—Forthcoming Manifesto from Santa Anna—Failure of a Grocery Firm Through Embezzlement.

NEW YORK, June 9.—Nothing new transpired in Fenian circles to-day, and the cause is rapidly dying out. Roberts is still in Ludlow prison. He says there is no reason to apprehend any violation of law by the Irish people, and expresses belief in the triumph of the Fenian cause ultimately. A number of persons call on Roberts, but he continues to refuse to abstain from active co-operation with his fellow countrymen.

There were reports of several cases of cholera in the city to-day and two deaths in Oliver street, though grave doubts are entertained as to the exact character of the disease. No alarm is felt here.

The excitement is increasing at Seguin's Point and many Staten Islanders declare they will not have a quarantine ground there. Next Monday they hold a meeting to protest, to denounce the authorities and urge that some other place be selected.

It is said Santa Anna will issue a manifesto defining his position and policy, declaring himself in favor of the Republican party in Mexico, and his faith in the early and complete triumph of the principles.

Ex-Captain General Dulce arrived here this afternoon by the Spanish frigate Isabel La Catolica. It is understood the Spanish residents of New York will soon give him a reception.

Sackett, Belcher & Co., grocers, suspended here to-day. The liabilities are $600,000. Their assets are said to be twice that sum. Swanborough, one of the firm, recently embezzled $150,000 and left for Europe, which is given as a cause of the failure.

History of the Richmond Gold Case—Gross Deception Practiced—Decision to be Reversed Soon.

NEW YORK, June 9.—A *Times* special gives the history of the Richmond gold case in brief, as follows: The gold was seized in Georgia. The Treasury Department sent here. The Richmond banks, represented by W. H. McFarland, James Caskie, and John M. Speed, attorney-at-law, claimed the gold. Upon their showing, the claims were evidently true, and fraud suspected to exist, the President ordered the delivery of the gold to the banks by the Secretary of the Treasury, provided he should be satisfied that it was never seized nor controlled by the Confederate Government, or any of its officers or agents. The officers of the banks swore that they had deposited the money, had no interest in the gold, and just as it was about to be handed over it was found a gross deception had been practiced, and that this gold and silver coin, principally from the Confederate thousand dollars, and all been in the hands of the rebel Commissary Department, and was carried by one of its officers out of Richmond and a part of it issued. What remained behind was turned over to the Richmond banks, who were with him in Georgia, to pay the bonds which the State of Virginia gave the banks for the loan of this identical gold, to be used to feed Lee's army. The decision of the case will be rendered in a few days.

FENIANS INSULT U. S. OFFICERS.

Inebriated Canadians Fire on a U. S. Vessel Unarmed.

NEW YORK, June 10.—Specials from St. Albans yesterday announce the finale of the Fenian invasion of Canada. The right wing of the Fenian army retreated from Pigeon Hill to that place, and the members are preparing to go home. The demoralization of the whole force is complete, and both officers and men refused further duty. Desertions occurred by wholesale, and after a council of war General Spear ordered a retreat to St. Albans. Reinforcements of arms and munitions failed to reach them. Ammunition was carried to Vermont and stored in a barn, near the line, where they will doubtless be seized by the United States troops, who were marching to the border. Considerable plunder was carried off by the men. Generals Lynch and Starr rather have been shot than leave Canada in the manner he has. General Meehan kept utterly. Any Fenians who have no means to go home will be furnished transportation by the United States Government. Many will avail themselves of opportunity to leave to-night.

At Cornwall, Canada, on Saturday morning, active movements were going on among the Canadian troops, with a view to a move on the Fenian outlaws. Some four thousand regulars and nearly twice that number of volunteers were understood to be moving from Montreal to concentrate at Surmand, at which point the force was estimated to be four thousand troops there. The excitement in Ogdensburg had died away. General O'Neill was prevented leaving Potsdam Junction on Saturday evening, by Colonel Jackson, of the First United States Artillery. General Meade arrived at St. Albans on Saturday evening, was serenaded by the Band of the Third Regiment, and made a brief speech to the effect that the settlement of the difficulty would prove satisfactory to our own and other governments, and allow to the people that the United States, notwithstanding the past, were determined to do unto others as they would be done by. General Spear and staff surrendered to Colonel Jackson, of the United States Army. Some of the Fenians are said to have insulted some United States officers at St. Albans.

Specials from Buffalo state the retreat had continenced. Two companies from Chicago of four hundred men each was expected the entire force would be at Malone before Monday morning, notwithstanding the statements of men who arrived on Friday night, that they would not leave without a round with their old enemies.

Specials from Ogdensburg say the American ship Credle was fired on with small arms by the Canadian militia on the opposite shore, who thought she was loaded with Fenians. The schooner below was ordered to heave to or be fired on, but the Captain refused, and on arriving at the wharf reported having been in line of fire of the militia. He was allowed to proceed. The Fenians were fast going home and Ogdensburg was resuming its usual quiet.

BUFFALO, June 10.—The body of Richard Schilly, of the Irish Ohio regiment of Fenians, who was killed at the battle of Ridgeway, was received to-day, escorted by the Fenians, about 1,500 men, most of them from Ohio, accompanied by a band of music. The body was sent to Cincinnati, where the deceased resided. The Fenians are gradually leaving town, and we are assured that by Tuesday but few will be left in this city.

TORONTO, June 10.—Every thing is quiet at all points on the Canadian frontier.

SELLING LAGER ON SUNDAY.

Constitutionality of the Law Preventing it to be Tested.

NEW YORK, June 10.—An injunction has been granted by Judge Cardoza, of the Common Pleas, returnable on Wednesday next, in a suit entitled Paul Falk vs Jackson S. Schultz and others, Commissioners of the Board of Excise. The plaintiff is an extensive manufacturer of and wholesale and retail dealer in lager beer. In his affidavit, on which the order to show cause was granted, Mr. Falk avers that he is advised by counsel that the recent act of the Legislature, so far as it prohibits the sale of lager beer on Sunday, is unconstitutional. The action has been commenced mainly for the purpose of testing the question. Eminent counsel have been employed, and the test case will probably be fully argued during the present week.

LATEST FROM NEW YORK.

Three Cholera Cases in the City—Quiet at Seguin's Point—Lager Beer Garden Open on Sunday.

NEW YORK, June 10.—Three new cases of cholera are reported on the hospital ship, and one in the city to-day. Mrs. Bell, of Fifty-first street, Mrs. Bell, in Twentieth street, terminated fatally, the other that of a man, of Hesler street, which yet lived to proper treatment.

Matters at Seguin's point remain quiet. Disturbances are expected there to-day, but nothing of a riotous character occurred, owing to vigilance on the part of a force stationed there. Quarantine Health Officer Smith is on the ground all day, the proprietor having obtained an injunction against the Excise Board on the ground that lager beer, which is manufactured in this vicinity, is not intoxicating. The Park was crowded, and many got drunk, though no disturbance was created.

Police Assaulted—Innocent Spectator Killed—Destructive Fire.

WORCESTER, Mass., June 10.—While a drunken man was being conveyed to the police office on night, from a melee at East Worcester, one was thrown by one of the officers, hitting him upon the head, whereupon the officer fired at the crowd, hitting a man named H. A. Weikel, cigar maker, near the eye, passing through the skull. Weikel can survive but a short time. He was a mere spectator. A large crowd has congregated at the police office and great excitement prevails.

A most destructive fire broke out shortly before two o'clock last night in the building on Main street in Charlestown, used as a furniture manufactory, and as there was a lack of water from repairs being made in the pipes, all the buildings in the square, on what is called the Mill Pond, were consumed, thereby rendering homeless sixty-one families, embracing five hundred persons, principally Irish. Several firemen were injured, but not seriously. The loss is estimated at $50,000.

A New Party Organization—The United States Democracy.

NEW YORK, June 10th.—A meeting was held at Masonic Hall this evening pursuant to advertisement, to take steps for the formation of a new party, having for its aim and objects the doing away with all sectionalism North and South, and the restoration of parfect sentiment in an endeavor for a speedy restoration of the Union. The meeting was addressed by Theodore Tomlinson, and a series of resolutions proposed, reaffirming the doctrines of State sovereignty. It is styled the "United States Democracy."

Yacht Capsized—A Pennsylvanian Drowned.

ALBANY, June 10.—About nine o'clock last evening a yacht, containing three young men, while crossing from the Cozzins to Pakeskill, collided with the steamer Dean Richmond aft the wheel, and was capsized. The steamer sent a boat to the pilot, Jno. Beat, went to their assistance, and succeeded in rescuing two of them, one of whom was a son of John C. Fremont. The third, named Marvin, from Pennsylvania, was drowned.

Return of Michigan Soldiers—Schooner Flying the Fenian Flag Seized.

DETROIT, June 10.—The Third and Fourth Michigan infantry arrived to-day from Texas. They are the last of Michigan soldiers in the service.

The schooner Dickinson, of Chicago, came ashore in the river this morning flying a Fenian flag. She was brought to and boarded and examined by the cutter Sherman. None but the crew were found aboard.

Consuls Recognized.

WASHINGTON, June 9.—The President has recognized Ramon Beltz as Consul of Spain, at Mobile, Henry Rosenburg as Vice Consul of Belgium, at Galveston, and Carl Frederick Odot as Consul for the States of Ohio, Michigan and Indiana.

Convicted of Murder.

CINCINNATI, O., June 10.—The second trial of Samuel Covert, for the murder of the Rosenbaums at Lebanon Ohio, yesterday resulted in a verdict of murder in the first degree. Harrison McNeal, a brother-in-law of Covert is to be tried as an accessory.

LATEST FROM WASHINGTON CITY.

Mexican Ministers's Advices from His Government—French Officers Decline Overtures of Napoleon—The Universal Exhibition of 1867—French Patents not Suspended—Rumors of Jeff. Davis Being Bailed—Horace Greely and Others in Washington about the Matter.

WASHINGTON, June 10.—The Mexican Minister to-day received news from the City of Mexico, from which it appears that Gen. Bazaine assembled all the French officers in that city, and informed them that Napoleon had decided to withdraw the French army from Mexico, but at the same time, he would grant leave to any officer who would like to take service, under Maximilian, in the foreign legion, to do so. He stated that they would be promoted to the next rank. It is said the officers had a consultation, and decided to decline this overture.

The Austrians were defeated in battle at a town in the State of Mazaca.

Announcements have been made by some of the Paris correspondents of the American press that several of the most stringent provisions of the French patent law will be suspended during the universal exhibition of 1867, so that no patent right can be infringed if correctly secured.

A letter has been received from Commissioner Beckwith on the subject, in which he writes that this is an error, and that there has been no suspension or modification of the patent laws, or of any portion of them, nor is such measure contemplated by the Imperial Commission, nor by the government. Both the laws and the formalities will remain unaltered.

It has also been stated that exhibitors from the United States will be permitted to display for sale duplicates of such articles contributed to the Exposition as they may desire to the notice of foreign purchasers. This is practicable at all times, but no change has been made, nor intended to be made, in the laws and regulations regarding foreign products imported for sale, and such products will be subject to the usual duties and charges.

It was rumored last night that Jefferson Davis had been or was to be bailed, but the report could not be traced to a responsible source. To-day, however, it is repeated, and the names of Horace Greeley, Augustus Schell and Horace F. Clarke, of New York, and several others, are mentioned in that connection. It is certain they are now in Washington, and at least one of them has been in search of Judge Underwood, who arrived here several days ago, but it has not become publicly known whether the effort to find him has been successful. Judge Underwood is a district Judge of the United States, and by the habeas corpus law of 1863 is empowered to grant writs of habeas corpus in cases of ill-fame. They succeeded in one case in compelling their inmates to surrender up all their valuables at Fairmont, in the name of the United States.

The Union Blues arrived here this morning from their excursion to Albany, and were received by the citizens, who gave them a splendid breakfast. They spoke highly of their entertainment at Albany.

North Carolina to be the First to Accept the New Constitutional Amendment—Bank President Released on Bail.

NEW YORK, June 9.—Specials from Washington to the evening papers say: Prominent North Carolinians say their State will accept the new Constitutional Amendment.

Van Buyck, President of the Merchants' National Bank, has been released under $20,000 bail.

Returning Fenians at Boston.

BOSTON, June 10.—A special train from St. Albans arrived late last night and another this afternoon, bringing altogether about 1,500 Fenians home from the Vermont border, all of whom had crossed the Canadian line except a few stragglers, and who are included in these arrivals. Transportation was furnished by the United States government. The Fenian war is ended in that section for the present.

WATER SUPPLY.

When a town attains the enormous size of London the question of an adequate supply of reasonable pure water for drink, cleanliness, manufactures, fires, and ornamentation, assumes not only immense importance, but becomes surrounded by almost insurmountable difficulties. For many years this question has occupied no small share of the thoughts of the municipal authorities, and has engaged the serious attention of Parliament. Exact computations have been made of the average quantity of water required by each individual; of the comparative purity of various sources of supply; of the effects of a deficiency of supply upon health; and of the tendency of impure water to induce epidemic diseases, and to increase the proportion of deaths to the whole number of cases. These facts have an application to all large towns, and hence we shall present some of them for consideration.

Rivers are found to be improper sources of water supply for larger towns. Such towns are necessarily situated at points where the streams have attained considerable volume. These streams drain large districts of country. During the rains which commonly occur in spring and autumn, swamps and other store-places of impurities are swept out into these streams. As population increases and extends towards the water-sheds, additional sources of mischief are introduced, as barn-yards and cess pools. Towns spring up, the whole sewage of which are discharged into the streams to be drank by the inhabitants of the larger towns below. Just in the ratio that cleanliness is enforced in the upper towns, the waters become unfit for use in the towns lower down. With these facts in view, it is not pleasant to contemplate too closely the drinking of the waters of the Schuylkill by Philadelphians or of the Allegheny by Pittsburghers. Every year adds to the disagreeableness of this medication.

The nearer the head of a stream water is taken out for supplying a town, the greater will be the general health of the people drinking of it. During the prevalence of epidemics the mortality inflicted by drinking water taken from lower sections of streams, becomes absolutely appalling.

In the Edinburg *Review* for April there is an article in which are drawn together, from official reports, a good many facts bearing on this question, of which this may be taken as a sample.

During the visitation of cholera in London in 1853–4, it was observed that the mortality was much larger in those portions of the city watered by companies that pumped their supply out of the Thames low down, than in those sections watered by companies reaching the river far up. In 24,854 houses supplied by the Lambeth Company, comprising a population of about 166,900 persons, there occurred 611 deaths from cholera, being at the rate of 37 to every 10,000 persons. In the 39,726 houses supplied by the Southwark and Vauxhall Company, comprising a population of about 243,171 persons, 2,473 deaths took place, being at the rate of 130 to every 10,000 living. The drinkers of bad water suffered three and a half times as much mortality as the drinkers of superior water.

In confirmation of the theory that this difference in mortality is attributable to the difference in the quality of water, some striking facts are brought forward. In 1848-9, when the cholera prevailed in the same districts, the average mortality was reversed; and so were the points on the river at which the Companies obtained their supplies of water.

How unfit the waters of a particular river are for drink must depend on the natural condition of the territory it drains; on the proportion its whole volume bears to the population to be supplied; on the number and density of inhabitants above the point at which the water is taken out; on the number and size of the towns situated on the banks of the river above the point of pumping; on the kinds of business transacted in those towns, and the perfectness of the drainage existing in them.

These standards of admeasurement do not help make up a flattering case for the people of Pittsburgh, Allegheny, and some of the adjacent boroughs. But, it must be remembered that the case must grow worse, instead of better, with the lapse of years. The sources of the Allegheny, following the sinuosities of that stream, are at least three hundred miles away. Until within a recent date, its banks were sparsely populated. Latterly, one wave of people after another has flowed in, until the whole aspect of the scene is changed. At frequent intervals villages and towns are springing up. A vast traffic is already developed. Year by year the waters become more unfit for drinking. Ultimately they must become prolific of disease and death.

THE Columbia *Daily Carolinian*, noticing the state of starvation of the people in Pickens district, South Carolina, says:

"Will not the fair ladies of Charleston, who recently collected a thousand dollars or more to expend in decorating the graves of soldiers, listen to the silent appeal from a starving population? Better one life and comfort of one child of the dead soldier, than flowers strewn on the thousand tombs. There is a tribute to the dead in every heart, and there is time in which to honor their memory; but suffering wives and little ones can not wait. It is cheap charity that follows the fashion while gaunt want stalks unnoticed in our midst."

A MASS meeting of the republicans of Schuylkill county was held on Tuesday of last week. Among the resolutions adopted was this:

"*Resolved*, That we heartily endorse the action of Congress on the question of reconstruction, and while we congratulate it on the firm and dignified position it has preserved, coming in conflict as it has, with the Executive of the nation in this matter, we believe that the plan upon which the Union members have united is just, equitable and necessary, and that upon that basis harmonious relations between all sections of the country, can be re-established."

JOHN FORSYTH, editor of the Mobile *Register*, the leading secesh paper in Alabama, writes to that journal from Chicago, under date of May 26th, a glowing description of the obsequiousness with which he and other "Southern guests" were received by a certain class of people, on their recent visit to St. Louis and Chicago. After closing his description of the "entry," he adds:

"I remain behind a few days, and am surrounded meantime by a host of ardent Democrats, the old Douglas men, who are here from all parts of the State, sitting as a Central Committee to arrange plans of a campaign against the Radicals, in which we of the South are so deeply interested. *I almost feel as if I were in "Rebel"dom when I hear those gentlemen talk. If possible, they are more zealous and uncompromising in their hostility to Radicalism than we are at home.* They sustain the President's policy without asking him for office, and advocate an immediate restoration of the Southern States to their former position and all their rights in the Union."

MR. FORSYTH was not mistaken. The Democratic party at the North was, all through the war, and is now, as completely saturated with treason as the Democratic party South. The main difference in the conduct of the two sections arose out of the fact that North the State governments were in loyal hands, while at the South they were in the hands of traitors. The bulk of Northern Democrats wanted the rebellion to succeed, and did what they could to make it a success, but stood in awe of the local authorities, who were backed by resolute majorities.

THE Erie *Dispatch* says:

"The public are anxiously awaiting the deliberations of the Union party in this District in regard to its choice for Congressman. A few, who have given the matter but little attention, suppose that Mr. Scofield will be the choice of the party, on account of his undisputed ability and the credit he has attached to the District from the manner in which he has discharged the duties of his position. But we find that there are many Union men like ourself, who have lost confidence in this gentleman and will not, under any consideration, consent to have him selected. In the eastern part of the District the lack of confidence and feeling of distrust is so great that it will be impossible for him to there command anything like a fair support, and his selection by the Convention, or ultimate election, will depend altogether upon the support he may get in Warren and Erie counties."

The *Dispatch* favors Mr. SOUTHER, of Elk county.

THE New York *Journal of Commerce* says:

"The hosts of negroes who have perished from exposure and starvation number doubtless hundreds of thousands; nor has this sorrowful state of things ceased to be visible among them. There is probably nowhere on the face of the earth to-day an equal population in any one country among whom there is so much suffering as among the freedmen in America."

The Florida *Times*, published at Jacksonville, prints this as a matter of curiosity, and illustrates as follows:

"In connection with the above extract we would state that the steamer Tamiend, owned and manned by colored people, left this city on last Saturday crowded with the *suffering population* on a *pleasure* excursion up our beautiful river. We have yet to record the first death from suffering in East Florida."

THE New York *Times* is vexed at its want of success in trying to induce the Southern Conservative journals to moderate their violence. Having failed in that direction, we suggest that our cotemporary try its hand on the organs of Northern Conservatism. Subtracting violence from them, however, would leave so small a remainder as to raise a doubt of their continued existence.

VENANGO.—The Republican primary meetings on Tuesday last resulted in the nomination of this ticket:

Congress, S. P. McCalmont; Senate, Thomas Hoge; Assembly, Hon. W. L. Whann; President Judge, James S. Myers; Associate Judge, R. S. McCormick; Prothonotary, J. H. Smith; Register and Recorder, James W. Shaw; Commissioner, James Duncan; Auditor, Philo Williams.

THE Gettysburg *Star* says:

"The Joint Committee of the Legislature, of which D. McConaughy, Esq., of this county is a member, appointed for the purpose of procuring for the State a suitable historical painting of the Battle of Gettysburg, have given the commission, very wisely we are sure, to the great Philadelphia historical painter, S. F. Rothermel."

JUDGE UNDERWOOD, in hearing of the motion to postpone the trial of Jefferson Davis till October, stated distinctly that the case would be disposed of before that time by the President. The unavoidable inference is that Mr. Davis is to be pardoned.

—A Mr. Lyon, becoming enamored of a certain widow living near Oshkosh, Wis., and, failing to win her hand by honorable means, waylaid her and committed a most revolting crime upon her person. She was found in the outskirts of the woods in a precarious condition. The scoundrel fled with hundreds in pursuit of him.

Elopement in High Life—A Romantic Affair.

[From the Louisville Democrat of the 5th.]

We obtained yesterday the particulars of a romantic little affair that transpired recently in this vicinity, and though not at liberty to give the names, we tell the story as 'twas told us.

The hero of the romance is the scion of an illustrious family, an Ex-Captain of the late "so-called," and claims Mississippi as his native State, and, it is said, did gallant service for the cause he espoused, in a Mississippi regiment.

The heroine! ah, how shall we describe so much loveliness? The graceful form, raven tresses, sparkling eyes, ruby lips, pearly teeth, and the many other charms essential to the make-up of a first class heroine. Our pencil is unequal to the task; suffice to say she possesses all the charms we have noted, and more; she is the daughter of a wealthy planter who, by the way, does not live a hundred miles from our city—beautiful, accomplished and youthful, scarce seventeen summers having passed over her head—the pride of her parents, the child of their old age—a treasure to be guarded with the utmost vigilance. But to the story. Since the close of the war the captain opened a correspondence with the lady, friendly and at long intervals at first, but gradually the missives became more frequent. The glowing epistles of the Captain told tales of chivalric devotion and undying affection that awakened a responsive throb in the bosom of the fair girl. Photographs and vows of eternal fidelity were exchanged, and the couple were hopelessly in love. A short time since the Captain came to our State, visited the young lady and made a formal proposal, and was referred to papa; but papa "couldn't see it in those lamps," and sternly forbade the match. The gallant Captain, undaunted by the parental *phillip*-ic, and knowing that "faint heart never won fair lady," resolved to make a bold dash and secure the object of his heart's affections. He planned an elopement, and, as subsequent events proved, did it up *brown*.

The young lady retired at the usual hour on Monday night, but before doing so tied a cord to her wrist, leaving an end of the cord hanging out of the window. At the hour appointed the impatient lover, unterrified by the roar of heaven's artillery, and his ardor undamped by the torrents of rain that were falling, made his way to the abode of his chamber seized the cord nervously, and gently pulled the *celle*. The signal was answered by a hundred and forty pounds of female loveliness dropping gently into his extended arms. The party hurried into the carriage, and were driven rapidly to the Jeffersonville ferry landing. Upon reaching the other side they repaired to the house of a well known Methodist minister, and the twain were made one flesh in apple-*pie* order.

The feelings of the outwitted parents can be easier imagined than discribed when it was announced to them next morning that their daughter was missing. The father, half suspecting the truth, hurried to our city, and soon learned the lesson so often learned by "cruel parents," that young hearts are a little too many for old heads.

—A new disease, to which Dr. Cattani gives the name of Acetonemie, has been described in the *Journal de Pharmacie*, of Paris. It is thought to be produced by the formation of a chemical compound called acetone in the system. This arises from the formation of organic matter, especially of grape sugar, in the stomach. The disease sometimes, though not often, proves fatal in a few hours. The remedies are purgatives and stimulants.

—Ezra W. Smith, sixteen years ago was a wealthy and honored citizen of Terre Haute. He suddenly disappeared, however, leaving his family and all his wealth behind. Lately he has been discovered in Nevada, where he owns large possessions and is very wealthy. He is considered partially insane.

SAVE THYSELF.
A CURE FOR INTEMPERANCE.
Dr. S. Cutter's Celebrated Stomach Bitters.
The greatest Nervine ever discovered. The addition, within the last ten years, of Dr. Cutter's Nervine Discovery to the English Bitters, makes it a perfect antidote to intemperance. Previous to his discovery of the Nervine, this medicine was before the English public, celebrated as a Tonic and Alterative, in the cases of the Stomach and of the Bowels, and diseases arising from impedities of the blood. As a nervine is always the choice of the stomach in the cases of patients addicted to the use of stimulants and narcotics, such as alcohol and malt liquors, opium, morphia, arsenic, tobacco, &c., as it removes the disease, or craving of the stomach for stimulant; in Headache, Neuralgia, and all nervous diseases, it has no equal as a Nervine.
Ten years use of the improved English Bitters in St. Bartolomew's Hospital, St. Mary's Hospital, Newgate and other prisons, has established its reputation, as a cure for intemperance, and gained for it the approval of the leading surgeons in all the hospitals and prisons throughout Great Britain, and is prescribed now by many physicians in private practice, for persons addicted to the use of stimulants and sedatives. In Parmlysis, St. Vitus' Dance, Epileptic Fits, Nervous Twitchings, and all Nervous diseases, it has no equal. Wholesale and Retail Agent,
A. TORRENCE,

RETRIBUTION.

EXECUTION OF PROBST.

HIS LAST HOURS.

[From our Special Correspondent.]

PHILADELPHIA, June 8th, 1866.

Messrs. Editors Gazette: There never was a more horrid crime—or series of murders committed upon the continent than those planned and executed by the fiend Probst. With the particulars of the murder of the Dearing family few of your readers are not unacquainted, and I need not here reproduce the sickening narrative. The heart which actua ted the deed and nerved the arm of the wicked monster is no more. The author of the eight-fold murder is in eternity. Ere this he has stood before the Dread Tribunal of Justice, and, out of charity, let us hope that God has dealt mercifully with the wretched criminal, for whose blood the world called in vengeance.

HIS LAST HOURS ON EARTH.

The unfortunate criminal passed his last night upon earth in a calm unbroken sleep. Last night, about nine o'clock, Rev. Father Grundner, his spiritual adviser, administered to him the sacrament of pennance and Holy Eucharist, and urged him to take rest in order to be prepared for the terrible fate so near at hand. At four o'clock he was roused from his slumber by the zealous priest. Upon getting up from his pallet he expressed himself much refreshed, and said that he felt more than ever preyared to meet his God. He partook of a hearty breakfast, and seemed more cheerful and resigned. A slight perceptible tremor shook his stout frame when Father Grunder told him that he would administer the last rites of the Church, since his time on earth was rapidly drawing to a close. After the administration of the sacraments the prisoner was actively engaged in prayer with the clergyman About ten o'clock, Sheriff Howells made his appearance at the jail, and word was sent to Father Grunder that the fatal hour fixed for the execution had arrived, and so to inform the wretched man. Probst received the announcement in an undisturbed manner, and turning to the priest whispered that he was ready. Then the sheriff entered the cell, and having endeavored to prepare for my death as well as I possibly could. The clergymen has visited me every day, and has instructed me well. I have several times confessed and received holy communion. Besides this, many prayers are offered up for me throughout the entire city, and, therefore, I am now so cheerful and composed that I can gladly offer my life as an atonement for my fearful crime. I trust that you also will be consoled and cheerful as I am.

"The clergymen will send you all the particulars of my death. I only entreat you all, pray for me. Have the holy sacrifice of Mass offered up frequently for the repose of my poor soul."

"Joseph Watchter has also visited me several times during my imprisonment. He will send you my picture and a lock of my hair.

"The eighth of June has been appointed as the day of my death, and *to-morrow* will be the eighth of June, on which I am ready to offer up my life with greatest joy for my sins.

"I trust you may give all its authority, in a happier and better place, and this hope makes me rejoice with my whole heart.

"I will now close my letter with many thousand greetings to all of you.

"I send a most heartfelt farewell! May we meet again, in a better world.

"ANTON PROBST."

Probst's life was not sufficient atonement for his fearful crimes, but the law could demand no more. ANAWALT.

The Leader.—The last number of the Pittsburg *Leader* is a spicy and ably edited sheet. The editorial on "Abolitionism" is severe and merited rebuke to the parties named. We are pleased to learn that the *Leader* is in a flourishing condition. It enterprise be worth anything Mr. Pittock, the publisher, should be most prosperous.

Bungled On.—George Martial appeared before Alderman Johns on Saturday, and made oath against Emanuel Clement for assault and battery. George states that the accused knocked him down and jumped on him, from the effects of which he was very sick for several days. George was sworned and after a hearing was held in $600 bail for his appearance.

Dead Body Found.—On Sunday morning the dead body of an infant was discovered in the field of Fulton's barn, at Girty's run, and with it a carpet sack, a bundle, and woolen shawl, in which was wrapped three woman's dresses. The body was much decomposed and the Coroner, who was summoned, arranged for the burial of it without holding an inquest.

Inquest To-Morrow.—Coroner Clawson proceeded to Newark Ohio, on Saturday, and after viewing the body of Oscar S. Smith, the brakeman killed on the Steubenville railroad, near Wheeling's mills, on the 30th inst., on Thursday last, returned to this city. The jury adjourned to meet at the Mayor's office to-morrow, when the inquest will be concluded.

Nuisance.—Patrick Moran was brought before Alderman Morrow, on Saturday, charged with maintaining a nuisance on his premises, to the annoyance of the neighborhood. The accused was discharged on the payment of $6.80 and costs.

Surety of the Peace.—Ellen Donahue made oath against Sarah Trimble, on Saturday, before Justice Lippert, for surety of the peace. A warrant was issued for Sarah's appearance.

OUR EARLY TELEGRAMS.

FENIAN ADVICES.

Dash into Frelighsburg.

BRITISH HORSEMEN DRIVEN IN CONFUSION.

Fenian Council of War at Buff.

TROOPS ORDERED TO THEIR HOMES.

Dispatch from General Mahan.

NEW YORK, June 9.—A portion of Genera Spear's Fenian cavalry made a dash into Freelighsburg yesterday, routed a British force and captured a large British flag. Gen. Spear immediately commenced intrenching.

The morale of the Fenian army is very bad. Desertions are the rule, and whole companies are making tracks for the nearest home transportation office, and in some instances regiments desert as an organization.

Colonel Scanlon, with his regiment, engaged a body of British horsemen at Pigeon Hill yesterday. The British were driven in confusion losing three flags, one man killed, and several wounded. The Fenians had three wounded. Col. Scanlon then ordered his regiment to withdraw, and they are now at St. Albans.

General Sweeney was held to bail in the sum of $20,000, and Colonel Mahan in $5,000.

A Fenian council of war at Buffalo decided that it was best to order all the troops back to their homes. Without arms and without money they think it a useless waste of life to enter Canada.

Montreal specials say Murphy and Meehan, who are held as prisoners at Cromwell, will be removed to the citadel at Quebec.

St. Albans specials state that Colonel Scanlon has arrived there. It was his regiment which defeated the British at Pigeon Hill. He has ordered it to withdraw. Spear still holds Pigeon Hill. Carpenter's Hotel, at that place, was torn down because the proprietor defied the Fenians.

Colonel Livingston, with United States troops, moved out to the border. Six pieces of artillery passed Fairfield to-day. Three thousand British are reported to be concentrating at Richfield to intercept Spear.

Ten tons of Fenian ammunition was seized at Burlington by the United States Marshal.

Eight British volunteers died from fatigue on their departure from St. Armand.

Malone specials state: It is believed the Fenians there under command of subordinate officers, will at once proceed to St. Albans to reinforce General Spear.

Horses to mount the cavalry are being obtained along the border.

General Murphy advised his men to remain in Malone a few days, and he would give them a fight.

It is supposed General Meade will have to proclaim martial law, and drive the Fenians from Malone at the point of the bayonet, as soon as he receives reinforcements.

An Ogdensburg special dispatch says that O'Neill is at Malone, and is emphatic in the declaration of a blow to be struck before Sunday night. It also states that the United States troops are thoroughly tainted with Fenianism, and cannot be relied on to enforce extreme measures.

BOSTON, June 9.—The following dispatch from Brig. Gen. Mahan is printed in the *Herald* of this city:

PIGEON HILL, C. E., June 9.—We are in the enemy's country.

The flag waves defiantly. We have captured Pigeon Hill, St. Armand, Centre Slab city, and Bri ish colors. We are down to advance, but fly up the ammunition; victory or death. Growle s and cowards have gone to the rear; they will talk about our position, but don't mind them. The tried men of nerve are at the front.

Reconstruction in Congress—Tennessee the Only State Entitled to Reconstruction.

NEW YORK, June 9.—The report of the majority of the Reconstruction Committee, laid before Congress yesterday, declares that the lately rebellious States can only be restored to their political rights by the consent of Congress; that the Governors appointed by the President had no power to organize civil courts, and that no constitution has been legally adopted in any of the States except Tennessee. The report further represents that Tennessee is the only one of the States at all qualified for representation in Congress. The minority, who dissent from the conclusions of the Committee are Senator Reverdy Johnson and Representatives Henry Gride and Andrew J. Rodgers.

Validity of the Civil Rights Bill.

NEW YORK, June 9.—The validity of the Civil Rights bill has again been called in question by Justice Watkins, of Sandy Hook, Maryland, in the case of a charge of rape made by a colored woman in behalf of her daughter against the white man. Justice decided that the evidence of a white witness was necessary before he could take cognizance of the affair. The case was first reported to the Washington authority, it is reported to the proper authorities for investigation.

Destructive Fire in Philadelphia—Loss $300,000.

PHILADELPHIA, June 9—A destructive fire broke out here this morning, on the corner of Twenty-fifth and Callowhill streets, on the Schuylkill. Dearces' woolen mills, and James Mouaren, Jr., & Co's establishment for dyeing and printing cotton and woolen goods, were destroyed. The engine house also were saved. Loss, two hundred thousand dollars, which is partially insured in New York and New England companies.

Steamers Sailed.

NEW YORK, June 9.—The steamers City of London, Teutonic, Fulton, Denmark, Hazzinian and United Kingdom, sailed for Europe to-day. The three take out about $2,215,000 in gold.

Latest from California.

NEW YORK, June 8.—The steamer New York, from Aspinwall, with California mails to the 19th ult., has arrived, bringing $653,000 in treasure.

Bank of London Stopped Payment,

THE EUROPEAN CONGRESS TO MEET IN PARIS.

PRUSSIA, AUSTRIA AND ITALY STILL ARMING.

600,000 Men Mobilized in Austria.

PRUSSIANS CONCENTRATING AT GLATZ.

Prussia and Italy Will Await the Conference.

NEW YORK, June 10.—The steamers Allemand, Malta, Denmark and Edenburg arrived. The Palmyra arrived out on the 28th, England, City of Paris and Wm Penn on the 29th; the latter at Plymouth, short of coal.

The government was beaten by ten on the vote on Mr. Bauvir's motion of instruction, looking to the better prevention of bribery and the corruption at elections.

The consolidated bank of London stopped payment on Sunday.

GERMANY.—The invitations to Congress are all accepted, and it will meet in Paris shortly. Prussia, Austria and Italy are still arming. The Italian volunteers are mobilizing rapidly.

Austria has mobilized 600,000 men. The Austrian parks of artillery and siege artillery are ready.

The Prussians are concentrating at Glatz and Landsheet. Prussia and Italy will postpone hostilities till the Congress has proved a failure.

The orders for a second conscription in Viena produced great discontent.

Italy engages not to attack during the conference.

Hopes of the war being avoided are believed in only by the minority.

Paris papers say Austria's compensation for the loss of Venetia will be found in the territory on the Adriatic coast, Prussia to have the Elbe duchies, and Denmark to have Northern Schleswig. The Rhine provinces are to be made a free State, and to join the Germanic Confederation. The Austrian General Berdecke issued instructions how the troops are to behave in the enemy's country. Italy is redubling her efforts to resist the new artillery of the Austrian army, which commenced marching towards Venetia on the 5th. Turkey will not occupy Montenegrin principalities in consequence of the Russian and French declaration against Turkish intervention.

STILL LATER.

FARTHER POINT, June 10.—The steamer Hibernian, from Liverpool on May 31st, via Londonderry on June 1st, passed this point this morning.

Telegrams from various points confirm the statements that Austria, Prussia and Italy have accepted the invitation to the conference.

A Committee of the Federal District has also resolved to accept the invitation given to the German Confederation. Of the countries still to hear from probably elect Baron Von Dorpforditen, the Bavarian minister for Foreign Affairs, as their representative. Communications concerning interchange of the arrangement for the day for the first meeting.

It is stated that the different Ministers of Foreign Affairs are to represent their Governments, however, the Austrian Cabinet says that Austria would not be represented by Count Mensterorf, but Prince Metternich, Count Blamar, Baron Meishenberg. Various conflicting statements were made as to the programme for the conference, and the terms of difference of the armed powers. It is asserted that Austria temporarily rejects the propositions relative to the cession of Venetia, that she calls for the conference of the estates of the Duchies to settle the Schleswig-Holstein question, demands that the Congress shall not be competent to discuss any proposal for reform of the Federal Constitution.

Prussia is also said to demand that the Conference shall not discuss questions relating exclusively to the internal interest of Germany, and that the deliberations shall speedily prove that a real prospect exists for the preserving of peace.

The note of the French Government inviting the Federal Diet to send a representative to the conference, is published at Frankfort. It states the object of the Conference to be a diplomatic settlement of the question of relations between Prussia, Austria and also of Federal reform, so far as it affects European equilibrium. The note concludes as follows:

"The Government of the Emperor trusts that the proposed conference will prepare for peace or war will, if they accept the proposed conference, suspend their armaments if they should scrupulously respect their territorial established to a peace footing." There is no indication of a relaxation in warlike preparations.

Many thousands of men are already engaged on the borders of Venetia. The army headquarters were about to be transferred to Prague, where Field Marshal Benedek will shortly inspect the troops.

It is asserted that a strong Prussian corps of observance was being concentrated on the frontiers of Prussia near Silsea and Galicia.

Despatches from Berlin announce the report of the Austrian and Prussian troops. No deaths occurred. An official inquiry had been instituted. A Prussian patrol had endeavored to inspect the Austrian troops on the frontier near Nachod.

A decree had been issued at Florence for the formation of volunteer battalions of Bersaglieri and a squadron of guides.

The Austrian Government had ordered a forced loan of 22,000,000 of florins in Lombardo Venetia, and in the Austrian provinces, and that Austria was in treaty with a Polish leader, who distinguished himself in the Polish insurrection, with the view of placing him at the head of an Italian Polish legion.

The House of Commons had a debate on Mr. Cloye's bill conferring the elective franchise on any person out of education. Mr. Gladstone opposed it on the ground that an educational test would break down, although he admitted that the bill was good in principle. A general debate ensued without decision.

The Dublin police had arrested five persons supposed to be active Fenians and to have assisted Stephens in baffling the detectives.

The British returns for April show the value of the exports to be over three and a quarter millions sterling in excess of April of last year. Financial affairs continue to exhibit a steady progress in recovery, and a gradual return of confidence.

Satterthwaite's circular of the evening of the 9th says: "A market for American securities during the past week has developed extensive sales of both Government stock and Railway shares on English as well as continental account, but little has been more than the demand for export to New York."

VERY LATEST BY TELEGRAPH TO LONDONDERRY.—*Liverpool*, June 1.—Affairs are unchanged. The conference has not been fixed. La Russe and La Presse believe that Napoleon will preside.

LATEST VIA LONDONDERRY.—*Liverpool*, June 10.—Cotton: The Circular reports the sales of the week at 50,000 bales, including 12,500 to speculators and 9,500 to exporters. The market has been buoyant, and prices are 1-16d higher for American, and 1-8d higher for other descriptions. The authorized quotations are: Fair Orleans, 16½d; Middling Orleans, 15¾d; Fair Mobile, 15¾d; Middling Mobile, 15d; fair Upland, 15¾d; Middling Upland, 13¾d.

The sales to-day, Friday, are estimated at 10,000 bales, including 2,000 to speculators and exporters, the market closing firm at the advance. The stock in port is estimated at 975,000 bales, of which 440,000 bales are American. Breadstuffs are dull and prices easier. Provisions dull and unchanged.

London, June 1.—Consols closed at 87⅜@87⅝ for U. S. 5-20's, 69⅝@69⅞; Illinois Central, 79@79.

FINANCE AND TRADE.

SATURDAY, June 9, 1866.

Gold after having touched 138¾, last night, opened strong again to-day at 139¾, and stood at 140 during the day. New York quotations to-day as received by Mr. P. R. Mertz: 1881's, 109¾@110; 5-20's, (old) 103¾@104; 5-20's, (new) 102¾@103; 10-40's, 98@98¾; 7-30's, 102¾. Cleveland & Pittsburgh Railroad, 82¾; Pittsburgh & Fort Wayne, 90½.

The advance in 5-20's has brought out a good many sellers, but the demand for export by bankers, who draw against these bonds, is heavy, and it is not likely that any of these securities now in transit will be thrown on the market. Ten Forties still keep above their relative value, with other securities, which is owing probably to the fact that the government, it is said, will place a five per cent loan on the market, and absorb all floating debts and maturing obligations. Seven Thirties have slightly declined, owing mainly to the scarcity of money, and large lots cannot be sold above 102¾.

There is considerable inquiry for some of our local securities by parties wishing to make long investments, at low rates, rather than getting big dividends from securities, bought at a large premium. Exchange Bank stock is selling at 65; 108 bid for Bank of Commerce; 58 to 58 for Allegheny, and 108 for Peoples'. Allegheny County six per cents are wanted at 75, do Compromise Fives at 75.

The money market was never more stringent in this market than at present. The banks are loaded with government bonds purchased above present rates, and deposits are falling off, the consequence of a diminished trade. Other places do not feel the pressure to the same extent that we do; our investments in oil and oil territories have absorb a large amount of capital that had but recently been acquired, and had not yet found proper or safe investment. During the oil excitement many persons made wild, and we might say, foolish ventures, and lost heavily. No estimate can be made of the money destroyed in this way—some men have been severely crippled, and other completely ruined.

Speaking of the recent failure in Philadelphia, the *Times*, of Friday, says:

"The failure of M. Schultz & Co. took the street rather by surprise on Wednesday, and though they were known to be very "short" in gold, it was believed up to the last moment they would cover their contracts even at the advanced figures. We understand that the senior partner of the firm is now and has been in Europe for some time, and he can therefore, in no way be held accountable for precipitating a misfortune that his presence here might have averted."

Probably the most important feature of the latest European news is that which noted an improved feeling in the cotton trade and foreign banking interests. The recovery in cotton is especially acceptable as securing the prompt payment of a large amount of bills drawn from this in April and early in May against cotton shipments, which had been very much depressed by the London money panic and its effects in Manchester and Liverpool. The advices, altogether, may be regarded as forestadowing a further decided improvement in bills of exchange and cotton by the succeeding steamers.

—The New York *Tribune*, of Friday, says:

"The reports in relation to the Bank of the Metropolis, at Washington, have disturbed lenders in some degree, and rumors are busy with reports of trouble with correspondents of the bank in this and other cities. The determination of the Government to withdraw from pet national banks the public moneys is a step in the right direction, and will secure something more than safety to the Treasury. It will force these institutions into more solid ways, and take from speculators the facilities they now enjoy for inflating values. Congress ought at once to go a step further, and direct the Assistant Treasurer at New York to establish a sterling bureau of national currency, and send home everything not redeemable in this city. As the banks are now managed, there is no safeguard against fraud, favoritism, and the currency of an exploded "institution" commands greenbacks less readily than the notes of a living bank. Nothing should be left to the speculation of the public, but should be taken in hand by the Government. Any bank showing sensitiveness at being asked for greenbacks should have the circulation constantly pressed home until it is what it pretends to be, "as good as greenbacks."

—The New York *Tribune* is evidently getting dissatisfied with Secretary McCulloch, though heretofore it has stood by him through good report and evil report. In its issue of Saturday, we find the following:

"The alarm shown at every rumor of trouble among the national banks is very significant, and should teach borrowers caution. It is well known that a large majority of these institutions, mainly upon this circulation, and that any attempt to make them redeem their notes in legal-tender would force them into liquidation. Against the protests of Mr. McCulloch has abandoned his effort to bring about specie payments, and is the leading inflationist of the day; but this cannot last, and the borrower must be prepared for no too much expended when he returns, as he must, to the principles of his Fort Wayne speech and his annual report. The country demands a currency for business upon fixed and deemable paper and successfully compete with nations paying specie, and to specie we must return in the most distant day. The return, come by what route it may, will cause great distress to all who are debtors during the process and are obliged to pay debts with assets daily sinking in value, and specially to those who have speculated on paper to be paid to gold. The use of paper money by the Treasury during the rebellion was a desperate resort, and its cost has yet to be borne by the country."

Stock and Money Matters in New York.

NEW YORK, June 9th.—The *Commercial's* money article says the Stock market is quiet but more active than yesterday, but dull. The cliques are doing very little.

New York Central clique are selling out and the shares have declined 3@3½ per cent and dull. The chief speculative interest centres on Cleveland and Pittsburg and North Western, both of which are being manipulated for higher prices. Governments are quiet but steady at the closing quotations of yesterday. Money is very abundant, and the prevailing rate on call is 5 per cent, with exceptions at 6 per cent. Sterling is dull, but the Treasury will add to the prevalent ease by the payment of millions of interest on 7-30's. There has been more activity in coupons during the last few days, especially in groceries paper. The rates for prime paper range at 9@6% per cent. Foreign exchange nominal at about the rates of yesterday. Gold shows a slight tendency to react from the decline of yesterday. The price has fallen below the views of the newly holders and there is a disposition to keep the price about 1.39, at least until the arrival of further news from London. The total shipments of specie to Europe the past week from this port were $1,-705,000 from Boston, $1,621,997; from Philadelphia, $25,000. Total imports of Dry Goods at this port for May was over seven and a quarter millions against less than four millions for the same period last year. Gold closed at 139½@139¾.

The *Express* says: Sackett, Belcher & Co., large grocers, failed in consequence of the default of swansdon, a junior partner, who had charge of their financial affairs. The concern lost $150,000. So far as ascertained, the defaulting party's whereabouts is unknown. The liabilities of the firm are estimated at $400,000, and assets good, but not indifferent, $300,000.

The following are the closing prices of stocks: Pacific Mail, 126½; Ohio Certificates, 25@25¾; Canton, 58@59; Cumberland, 45@46; New York Central, 97@97½; Erie, 85@86; Reading, 100@100½; Cleveland and Pittsburgh, 82@82½; Chicago and Rock Island, 99@99½; North Western, 39½@39¾; Fort Wayne, 90@90½; Western Union Telegraph, 60@60¾.

The *Post's* commercial article says the Loan fund is easy and lenders find it difficult to use their surplus funds at 5@6 per cent. Commercial paper is wanted and passes at 6@7 per cent. The Stock market is dull and without any events of speculative importance. New York Bounty Loan is quoted at 102¾@103; California Sevens, 114. Bank Shares are firm. At the one o'clock call, New York Central closed at 97½; Erie, 86; Reading, 102; Michigan Southern at 79½; Illinois Central Scrip, 143¾; Cleveland and Pittsburgh, 82½; Cleveland and Toledo, 104½; North Western, 39¾; Cumberland Coal, 45½; Quicksilver, 50½.

Later.—Erie sold at 86¼. Foreign Exchange closed dull for the strength; bills at 60 days on London are quoted at 108¾@109; for commercial, 109¾@110; bankers' do, at short sight, 111@111¼.

Baltimore Cattle Market.

BALTIMORE, June 7.—Beef Cattle.—The offerings during the past week were 645 head, against 1057 head previous week. Of the receipts 250 head were brought from Ohio, 120 from Illinois, 85 from West Virginia, and 35 from Kentucky, all over the Baltimore and Ohio Railroad; 90 from Maryland on foot, and 120 head were from last week. Prices to-day ranged as follows, viz: Common at $6@7.50, and prime beeves at $8@9 per 100 lbs, with a few at prices a shade higher. The market closed very dull, with a downward tendency.

Sheep—The supply this week was good, but owing to a demand in Philadelphia prices have stiffened up. Sales were made at 5@6¾ cents per lb gross.

Hogs—The supply in market has been good, and sales made at $13.25@14 per 100 lbs net—showing an advance of 1c per lb on the inside figure.

New York Iron Market.

NEW YORK, June 9.—The scarcity of No. 1 American has attracted increased attention to Scotch Pig, the sales of which have been large at pretty full prices. Among the transactions to notice about 3000 tons Coltness Gartsherrie &c., ex ship, for gold and currency, on private terms; 2000 do in lots, $45@47 for common to best brands; and 500 do Glengarnock, $46@46.50 ex ship. There is very little American offering; most makers being sold close up, and some ahead of their production, now refuse to take orders at all, 100 tons No. 1 brought $44 at Elizabethport, but this is now an inside price. From store, prices of bar are very firm, with only a moderate demand, however —an invoice of 100 tons English common bar, sold at $92.50 gold, ex ship.

Philadelphia Iron Market.

PHILADELPHIA, June 8.—Pig metal is in steady demand, at an advance, with sales of 1500 tons No. 1 foundry at $43@44; No. 2 at $40@41; and forge at 36@37c. Scotch pig remains as last quoted. Blooms are excessively dull, but prices are unchanged. Manufactured iron—the transactions are in small lots at fair prices.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, June 9, 1866.

The produce markets continue quiet and a little dull, and for some articles, prices are a shade lower, though as a general thing, the fluctuations are slight, and of an unimportant character.

COFFEES.—Coffee has declined with gold, and we now quote good to strictly prime Rio at 28@29. Sugars steady, with regular sales at 12¾ to 14¾ for Brown, as to quality; 17 for Crushed; 16¾ for "A" Coffee, and 16 for "P" ditto. Porto Rico Molasses firm at 85 to 87½ for strictly prime, and Rangoon Rice is quoted at 10@10¼.

GRAIN.—Wheat is quiet and unchanged; sale of 2 cars choice Spring at $2.25. Corn is steady and fairly active; sale of 1 car, in Cars, and 3 cars Shelled, in elevator, at 80, and 1 do at 79; 4 cars yellow at 82. Oats unchanged; sale of 1 car, in elevator, at 54, and 300 bush from store at 56. Barley is quoted at 90 to $1 for good to prime spring. Sales of Rye at $1, and Buckwheat at $2.25.

FLOUR.—Is less active but unchanged. Regular sales from store at $10.50 to $11 for Spring Wheat; $11@11½ for half Spring and half Winter; and $12@12¾ for all Winter. Rye Flour is quiet and unchanged.

PROVISIONS.—Bacon is firm, and some holders are asking an advance. We quote at 14½ for Shoulders; 17½ for Ribbed Sides; and 23 for Canvassed Sugar Cured Hams. Lard quiet but unchanged, at 22½@23. Mess Pork is dull but firm.

POTATOES.—Quiet but steady, with a fair retail demand, at $1.75 to $1.90 per bush, and $2.00@2.25 per bbl. Sales of some 200 bbls prime Peach Blows, in lots, at $3.50.

BUTTER.—There is no improvement to note in the demand, and the market continues very dull; prime Roll may be quoted at 20 to 22.

EGGS.—Demand fair and market steady, with regular sales at 22@23.

CHEESE.—New Western Reserve is selling at 16@17; Hamburg 15@16; and prime Ohio Factory at 21@22.

OIL.—No 1 Lard Oil is firm with a continued fair demand at $1.38@1.35.

HAY.—Is scarce and firm; sales at a regular way from sales at $25 to $30 per ton.

PIG LEAD.—Is held firmly at 11½.

DRIED FRUIT.—Peaches scarce and firm with sales at 8 to 19 for quarters, and 23@24 for halves. Apples scarce and firm but unchanged.

SEEDS.—There is a continued good demand for Flaxseed, with sales at $2.55, and a round lot would bring $2.60. No demand for Clover or Timothy.

SORGHUM.—Is dull but unchanged at 40 to 45 for common, and 55 to 60 for prime.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, June 9, 1866.

CRUDE.—The Crude market has been very dull and depressed throughout the week, and as compared with the early part of the week, prices are a shade lower. The resumption of navigation and the prospect of increased receipts, together with the unfavorable advices both from the east and Europe, have had their effect in bringing about the present stagnation, and holders, who a few days since, were pretty firm in their views and refused to make any concessions in order to effect sales, are now willing, and in some cases anxious to effect a slight reduction. It is true that at present the stock in this market is comparatively light, aside from that in the hands of speculators, but there is a pressure for shipment, and many of our refiners are pretty well supplied, while those who are not, are holding off in anticipation of lower rates. We were unable to hear of but one sale to-day, one thousand barrels, in bulk, at 16. It was reported that there had been a sale at 15, but we were unable to trace it up, and consequently, cannot vouch for its correctness.

REFINED.—The demand for bonded oil continues rather light, and the market is dull and nominal. The following is an illustration, the best offers to-day for June delivery, Philadelphia, were at 40c, while yesterday there was a sale at 42c, and the London market again, several sales were reported at 41@42. For July, 42 to 42½ appeared to be the best offers to-day, while a few days since buyers were willing to pay 44. For August, 44½, and sale of 500 bbls for August, at 44½, and this was the only transaction we could hear of. For immediate delivery on the cars here, sales were reported during the week at 34@35, but these figures could not be realized to-day. Free oil is more inquired for, but we have no further sales to record.

NAPHTHA AND RESIDUUM.—There has been an improved demand for Residuum, and prices may be quoted a shade higher. We can report sales of 1000 bbls—500 bbls at 45½, and 500 at 46, delivered in the city. Naphtha is dull and nominal.

ARRIVALS.—The arrivals of oil by the Allegheny River since our last report were as follows:

Gallagher & Danver, 317 R. Danver 91
J. E. Strickler & Co. 192 Weaver & Co. 135
W. J. Shields & Co. 249 Fisher & Bro. 120
Mawhinney & Co. .... 719 McIntosh & Co. 100

Total..... 2067
Total Receipts for the week..... 11,184
Total Receipts last week..... 9,917
Total Receipts by river since Jan. 1..... 387,226

New York Produce Market.

RIVER NEWS.

The river has been rising steadily at this point during the forty-eight hours ending last evening, at which time it was still rising, with five feet ten inches in the channel, by the pier marks. So far, the rise has been in the Allegheny, the Monongahela, as yet, having risen but slightly, but we should be surprised to hear of a swell of two or three feet in this stream, as there have doubtless been heavy rains at its head waters during the past day or two.

The Allegheny was falling at Franklin on Saturday, with three feet eight inches at last point. We had a very severe storm on Saturday night. The rain fell in torrents for several hours, accompanied with very vivid flashes of lightning, and terrific pearls of thunder. Yesterday the sun shone brightly all day, but towards evening the atmosphere became somewhat cooler.

The arrivals since our last report, include the Bayard, from Parkersburg, and the Tableguah, from Cincinnati. The Camelia, for Cincinnati, was the only departure. She had a very fair freight list. The Chieftan and Fayette left for Brownsville on Saturday evening.

Quite a number of the Allegheny river towboats left for Oil City on Saturday and Sunday, and we have no doubt they will get through with but little difficulty. The Brilliant had steam up yesterday afternoon, and would doubtless get off during the evening. Some of the low boats engaged in towing coal between here and Cincinnati and other points below, were smoking up yesterday afternoon, and making preparations, evidently, for a voyage.

The Nora, Capt. H. H. Devinney, is next on list for Cincinnati and Louisville, and will commence receiving freight this morning. Capt. Devinney is a very popular and experienced steamboatman, and we hope he will receive, as he deserves, a good trip. The Kate Putnam, W. S. Evans, is also announced for the same points.

The Lorena, Capt. Sam. Shuman, is filling up rapidly for St. Louis, and will soon be ready to take her departure.

The Silver Cloud reshipped her Pittsburgh freight on the Leonora, at Cincinnati on, Friday, and put up a sign for New Orleans. The last named boat and the Citizen left Cincinnati for Pittsburgh on Friday evening. The Messenger bound from New Orleans to Cincinnati, passed Evansville on the 8th inst. and the Armadillo en route from Memphis to Cincinnati was at Cairo the same day. The Cincinnati *Commercial*, of Saturday, says:

Captain H. H. Brown is in luck again. He received a dispatch yesterday, stating that four hundred barrels of oil will be pumped daily out of the White Oak well. They have already filled a tank, holding three hundred barrels, in twelve hours, from the "Barker well," a branch of the celebrated "White Oak." Capt. Donaldson and Capt. Scott, of Pittsburgh, passed through this city yesterday, en route for St. Louis. The work on Capt. Donaldson's new mammoth packet, building at Pittsburgh, is progressing finely.
